Dear Parents/Carers

I hope you have all had a good half term.

We are pleased to welcome the students back for the second half of the school year. During the half term break we ran extra revision sessions for the year 11 students in some subjects. It was great to see so many students coming along, keen to take every opportunity to learn and prepare themselves for their exams. Year 11 have a second set of Mock exams this week.

In this half term, it's not just the year 11 students looking ahead. There will be careers events for years 9 and 10.

On the 1st March, year 6 students who have been allocated a place at OSA will be notified and the transition processes will begin for them.

Over the course of this academic year staff and students have been considering the aims, vision, and values of OSA and we have arrived at our 3 headline values of 'Ambition, Respect and Endeavour'. The shared conversations will continue: students want and deserve the highest standard of education and we need to share not just ambition but a clear understanding of the behaviours that support learning and allow others to flourish. Excellent attendance remains the key foundation for success.

Between now and the Easter holidays students will have various, different extra-curricular opportunities such as theatre trips, sporting fixtures, Science and Technology clubs and World Book Day activities.

We will produce another newsletter before the end of term. I hope that the communication from the Academy is helpful for you. We are always happy to hear from parents/carers: the best route is via contact@ormistonsudbury.co.uk.

Yours sincerely

Mrs. S. Morris
Principal
